Getac F110 Tablet Install Pricing from Fully Involved Reliable Electronics

Owner Contact: Matt Ambrose
Business name: Fully Involved Reliable Electronics
I am fully insured and have been installing some Getac F110 tablets which start in the $1,800.00 range. The city of Utica has been using these tablets for 7 plus years and have had no issues.

The tablets need a new power supply as they run on 19 volts and a docking station is also required, the existing mounting equipment generally gets reused. Any further info needed you can call 315-534-0221 or via email
