

Adult Homes, Family Type Homes for Adults, Assisted Living and Retirement (Independent Living) Communities in Onondaga County

Adult Homes - An adult home is a New York State-licensed Adult Care Facility that offers long-term, supportive residential care, including a private or semi-private room, all meals and snacks, housekeeping, laundry, 24-hour supervision, assistance with the self-administration of medications, personal care assistance, case management services, and structured activity programs.

Family Type Homes for Adults - These private homes provide an atmosphere of family living for adults who are unable to live on their own. Family type homes for adults are provided by people who have a desire to help others and have extra room in their homes. Each home is limited to a maximum of four residents unrelated to the provider. The homes are certified by the New York State Office of Children and Family Services through its Bureau of Adult Services. County Departments of Social Services are available to assist with the application process, inspections, and placement of residents.

Assisted Living Program - An assisted living program, which is available in some adult homes and enriched housing programs, combines residential and home care services. It is designed as an alternative to nursing home placement for individuals who historically have been admitted to nursing facilities for reasons that are primarily social, rather than medical in nature. The operator of the assisted living program is responsible for providing or arranging for resident services that must include room, board, housekeeping, supervision, personal care, case management and home health services.

Enhanced Assisted Living - Provides everything an Assisted Living Program does but is also allowed to do the following should a senior require assistance: Oxygen Therapy, Blood Pressure Checks, Indwelling Catheter Care, Nebulizer Treatment, Falls Management, One and Two Person Transfers, Blood Glucose Monitoring, Insulin Administration, Enema Administration, Foley Catheter Care, Suprapubic Catheter Care, Transdermal Patch Application, Internal Feeding via Peg Tube.

Memory Care - Memory Care communities, which include Alzheimer's care and Dementia care facilities, consist of specially designed living spaces and supporting environments for those who are living with cognitive challenges brought on by Alzheimer's care and dementia. These may include carefully considered flooring to reduce problematic patterns for those with Alzheimer's or dementia and wall colors that help them to find the way. The dementia care environment helps cue its residents in their daily lives. Areas of the community are set up for safe engagement in activities such as gardening, kitchen work, and other life skills that provide purposeful and meaningful successful moments.

Enriched Housing Program - An enriched housing program is established and operated for the purpose of providing long-term residential care to five or more adults, primarily persons sixty-five years of age or older, in community-integrated settings resembling independent housing units. The program provides or arranges for the provision of room, board, housekeeping, personal care and supervision. Enriched housing programs may be operated by a natural person, a partnership, a not-for-profit corporation, a public corporation, a non-publicly traded business corporation or a limited liability company.
