COMMISSIONER’S MESSAGE

As you read this annual report, you will see that the Department of Social Services – Economic Security (DSS-ES) served over 190,000 County citizens, or 41% of the county’s population, through one or more of our programs. These services include cash, food, heating and child care assistance, health insurance and child support.

This year was a challenging one with many long-time employees retiring and bringing on new staff to learn our complex public benefit programs. Even with this significant transition of staff, the department was able to effectively serve the public.

We continued to work on ways to improve customer service. We added an Information Center to the first floor of the Civic Center, completed a full year with JOBSplus! co-located in the Civic Center and Kochian Office Building and launched the Lobby Client Tracking System on the 2nd floor Civic Center at the very end of the year.

Finally, I want to thank the nearly 400 Department employees for their dedicated and professional service.

Sarah Merrick

Unduplicated Individuals Served in 2017

Approximately 41% (193,613 individuals) of our County’s population interacts with one or more of our programs.
LOBBY TRACKING SYSTEM

One of our exciting new innovations involves the use of portable carts to check in clients coming to our second floor location. Utilizing a “DMV style” system, clients can check in with a cart operator, be given a ticket, and be seated in a matter of a minute or 2. They watch a video board and listen for their number to be called and move to their next location quickly. This system has greatly reduced the amount of time clients spend in the waiting room, lessening stress on them, and on our workers. It has virtually eliminated the long lines that plagued our waiting room in the past.
TEMPORARY ASSISTANCE (TA)

FAMILY ASSISTANCE (FA)
DSS-ES is the local administrative entity that provides cash assistance for needy families that include a minor child living with a parent or parents or a caretaker relative.

Under federal guidelines eligible needy families are limited to receiving benefits for a total of 60 months in their lifetime including months of assistance granted in other states.

FAMILY ASSISTANCE (FA) APPLICATION
- 2015 5,992
- 2016 5,032
- 2017 5,037

Once the 60 month limit is reached, the household is ineligible to receive any more federal FA benefits. The months need not be consecutive, but rather each individual month FA benefits are received are included in the lifetime count. Parents and other adult relatives who can work must be seeking work, working or involved in work-like activities to receive FA assistance unless deemed unable to work due to a disability.

SAFETY NET ASSISTANCE (SNA)
SNA was established under the New York Welfare Reform act of 1997 to replace the Home Relief Program. SNA provides assistance to individuals and families who either do not qualify for the federal FA program, or whose FA benefits have run out.

Benefits are provided as cash for 24 months. After 24 months, benefits may continue as non-cash payments. (vouchers or payments made directly to vendors such as landlords.)

Those who are not eligible for other assistance programs may be eligible for SNA including:
- Single adults.
- Childless couples.
- Children living apart from any adult relative.
- Families of persons abusing drugs or alcohol.
- Families of persons refusing drug/alcohol screening, assessment or treatment.
- Families who have exceeded the 60 month limit on TANF.
- Individuals and families who are eligible for temporary assistance but who are not eligible for federal reimbursement.

SAFETY NET ASSISTANCE APPLICATIONS
- 2015 12,136
- 2016 10,629
- 2017 12,918

It is important to note that ALL FA and SNA applications go through the screening process which includes application review, interview in a group setting and interview with an eligibility worker. All FA and SNA applications are also considered for Medical Assistance (Medicaid) and Food Stamp (SNAP) benefits.

CHILD SUPPORT ENFORCEMENT

Child support services are available to any parent, guardian or caretaker of a child who meets the requirements. Filing for child support from non-custodial parents is part of the application process for Public Assistance and Medicaid. Applicants for, or recipients of, Public Assistance are automatically provided with support services unless otherwise indicated.

CHILD SUPPORT ENFORCEMENT WORKS TO:

• Locate non-custodial parents
• Establish paternity for children by assisting both parents with the signing of a voluntary acknowledgement of paternity or through family court by filing petitions to establish paternity.
• Determine paternity through genetic marker or DNA testing.
• Obtain support orders from court including provisions for health care coverage.
• Enforce unpaid child support. All individuals obligated to pay child support are subject to any and all enforcement measures available.
• Review support orders for increased support based on cost of living adjustments.
• Modify child support orders based on changes in circumstances.

The above services may be applied to orders originating in other states and countries.

Additionally 1,957 of the completed investigations resulted in case closings and reductions. The total cost avoidance associated with investigations conducted in 2017 totaled $7,000,000.
