RESOLUTION NOS. 112 - 124

OFFICE OF THE CLERK

August 6, 2019

Listed below are the resolutions to be presented to the County Legislature at the August Session.
The meeting will be held at **1:00 p.m. on Tuesday, August 6, 2019.**

- A. CALL TO ORDER
- B. CALLING OF ROLL MEMBERS
- C. INVOCATION – **Mr. Burtis**
- D. SALUTE TO FLAG – **Mrs. Tassone**
- E. READING OF MINUTES
- F. APPROVAL OF MINUTES
- G. PRESENTATION OF COMMUNICATIONS
 - 1. **Correspondence:**
 - a. 07-12-19 Letter from County Executive McMahon – RE: Appointment to the Onondaga County Justice Center Oversight Committee (Christine TenEyck)
 - b. 07-12-19 Letter from County Executive McMahon – RE: Appointment to the Onondaga County/Syracuse Commission on Human Rights (Ali Adan)
 - c. 07-12-19 Letter from County Executive McMahon – RE: Reappointment to the Onondaga County Civic Development Corporation (Matthew Marko)
 - d. 07-16-19 Memo from Chairman Knapp – RE: Joint Reappointment to the Board of Directors of the Onondaga Civic Development Corporation
 - 2. **Gold Seal:**
 - a. Recognize and Congratulate the Lafayette Boys Lacrosse Team upon Winning the State Championship (Sponsored by Chairman Knapp)
 - 3. **Public Comment:**
- H. REPORTS OF STANDING COMMITTEES
- I. REPORTS OF SPECIAL COMMITTEES
- J. CALL OF RESPECTIVE LEGISLATIVE DISTRICTS (District No. 3)

3RD DISTRICT – MR. BURTIS – HEALTH

- 1. **NO. 113** Providing for Various Personnel Changes (Health) (16-0-1 Ryan)
- 2. **NO. 114** 2019 Transfer Resolution (Health) (\$43,000) (16-0-1 Ryan)

5TH DISTRICT – MS. CODY – WAYS AND MEANS

- 3. **NO. 115** Amending the 2019 County Budget to Make Funding Available for Expenses in Connection with Early Voting and Elections, and Authorizing the Execution of Agreements (\$1,247,059) (16-0-1 Ryan)
- 4. **NO. 116** Standard Work Day and Reporting Resolution (16-0-1 Ryan)
- 5. **NO. 117** Confirming Appointment to the Onondaga County Board of Ethics (George Dooher, Jr.) (16-0-1 Ryan)
- 6. **NO. 118** Confirming Appointment to the Community Services Advisory Board (Michael Raab) (16-0-1 Ryan)

7. **NO. 119** Approving the Design (Scoping I-VI) and Construction Phases of the Pedestrian Crossing Improvements Safety Project, PIN 30PS02, Agreeing to Participate and Pay Up to 100 Percent of the Non-Federal Share of the Project and Accepting the Pedestrian Improvements (16-0-1 Ryan)

11TH DISTRICT - MR. McBRIDE – PLANNING & ECONOMIC DEVELOPMENT

8. **NO. 120** Authorizing the Transfer of Tax Delinquent Properties to the Village of Marcellus for Park Purposes (\$35,000) (16-0-1 Ryan)

12TH DISTRICT – MR. KNAPP

9. **NO. 112 - (WAIVER)** In Memoriam (Honorable James C. Tormey III) (Adopted by rising tribute)
10. **NO. 121** Amending the 2019 County Budget to Make Funding Available to Support a Program of Aid for Community and Economic Development Projects within Onondaga County (11 May, Ervin, Burtis, Tassone, Cody, Abbott-Kenan, Holmquist, McBride, Bottrill, Williams, Knapp – 5 Buckel, Chase, Bush, Jordan, Rowley -1 Ryan)
11. **NO. 122** Authorizing the Transfer of Tax Delinquent Properties to the Onondaga County Accountability & Reinvestment Corporation (16-0-1 Ryan)
12. **NO. 123 – (Wavier)** Confirming Appointment of Ryan P. Frantzis as Legislative Aide of the Onondaga County Legislature (13-3 Ervin, Chase, Williams -1 Ryan)

14TH DISTRICT – MR. JORDAN – ENVIRONMENTAL PROTECTION

13. **NO. 124** Authorizing the Execution of an Order on Consent Relative to the Settlement of an Enforcement Action Brought by the New York State Department of Environmental Conservation (16-0-1 Ryan)

- K. UNFINISHED BUSINESS
- L. ANNOUNCEMENTS FROM THE CHAIR
- M. ADJOURNMENT

Respectfully submitted,

DEBORAH L. MATURO, Clerk

TO THE HONORABLE MEMBERS OF THE ONONDAGA COUNTY LEGISLATURE:

Pursuant to Local Law No. 4-2015, authorizing the creation of the Onondaga County Justice Center Oversight Committee, I hereby appoint, subject to confirmation of the County Legislature, the following individual to serve as my representative on the committee.

APPOINTMENT:

Christine TenEyck
99 Ball Road
Syracuse, New York 13215

TERM EXPIRES:

December 31, 2021

Ms. TenEyck will replace Dr. Dennis Nave.

Your confirmation of this appointment would be greatly appreciated.

Sincerely,

J. Ryan McMahon, II
County Executive

Christine TenEyck

Address: 99 Ball Rd., Syracuse, NY 13215
Cell: 434-566-7577 | Email: christine.teneyck@gmail.com

Multifaceted and reliable management professional with proven experience in leadership, collection of delinquent accounts, payroll, policies and procedures, organizational management, and oversight of multiple complex projects. Creative problem-solver with demonstrated success in training and development of top-performing teams focused on customer service, operational efficiency and regulatory compliance. Collaborative team leader with excellent communication and interpersonal skills to resolve problems successfully while ensuring positive customer relations with service excellence is looking for a position of an Executive Administrative Assistant/Office Manager, Supervisor position.

- ▶ Standard Bank Procedures Regulatory Compliance
- ▶ Client Relations Staff Supervision
- ▶ Garnishment, Levies, Warrants, Interrogatories
- ▶ Delinquent Account Collection
- ▶ Accounting Support
- ▶ Cash Management
- ▶ Microsoft Office (Word, Excel, PowerPoint; SAP)
- ▶ Public Trust Clearance for Safekeeping of Confidential Information
- ▶ Local Government
- ▶ Customer Service
- ▶ Account Audits
- ▶ Organizational Management
- ▶ Performance Management
- ▶ Petitions of Abandonment
- ▶ Creative Problem Solving
- ▶ Database Management
- ▶ Report Documentation Payroll
- ▶ Abstracts, Proof of Claims
- ▶ Training
- ▶ Quick Books & ADP Experience
- ▶ Office Management
- ▶ Transcription Services
- ▶ Policies & Procedures
- ▶ Office Administration

Executive Assistant, Communications Specialist

June 2016 – Present

Greater Syracuse Association of REALTORS®, Syracuse, NY

- ▶ Liaison for the following committees: GSAR Board of Directors, Main Event Committee, Marketing Task Force, Oswego County Chapter, Cayuga County Chapter, Strategic Planning Committee, By Laws Committee and GSAR Fundraising Task Force.
- ▶ Event Coordinator for over 20 events yearly.
- ▶ Post stories, information and events on website and Facebook.
- ▶ Managed multiple tasks and projects simultaneously and prioritized appropriately based on deadlines and other factors, applying strong MS Office knowledge, speaking and writing skills.
- ▶ Prepare and present affiliate packets to prospective affiliates
- ▶ Write scripts for the president for all events
- ▶ Blast important notifications and event flyer to membership through Constant Contact

Office Administrator

Nov 2015-May 2016

Directed Vapor Technologies International, Inc., Charlottesville, VA

- ▶ Provided general office and administrative support, light bookkeeping, maintaining filing system, completing administrative paperwork, and overseeing office efficiency and equipment.
- ▶ Assisted with administration of human resources processes, including filing personnel documents, collecting timesheets, and related matters.
- ▶ Assisted with travel arrangements and helped create and process travel expense reports;
- ▶ Provided special assistance to CEO and Controller.
- ▶ Managed multiple tasks and projects simultaneously and prioritized appropriately based on deadlines and other factors, applying strong MS Office knowledge, speaking and writing skills.

Transcription Specialist

Mar 2015-May 2017

National Capitol Contracting, LLC, Arlington, VA

- ▶ Provided contracted transcription services of disability hearings for Social Security Administration.
- ▶ Ensured accuracy and completeness when downloading audio files, uploading of audio file into a special program for transcription; encrypting and emailing back to NCC.

Deputy Treasurer / Customer Service Supervisor

May 2007-Sept 2015

City of Charlottesville, Treasurer's Office, Charlottesville, VA

- ▶ Managed and provided leadership for Treasurer's Office with oversight of policies and procedures, staff and resource allocation, and customer service.
- ▶ Supervised, mentored, and trained customer service staff focused on responding to customers, assisting with complex taxpayer problems, and successful problem solving.
- ▶ Managed staff performance, allocate resources to ensure adequate departmental coverage to achieve goals, and monitor work to ensure accuracy and regulatory compliance.
- ▶ Developed, communicated, and managed policies, processes, procedures, and systems to ensure operational efficiency and regulatory compliance.
- ▶ Managed collection of delinquent accounts; researched and initiated customer contact; maintained audit accounts; initiated payment plans; proceeded with legal action including garnishments, levies, warrants, abstracts, petitions of abandonment, proofs of claim or interrogatories; ensured regulatory compliance.

Cash Management Technician

Oct 2006-May 2007

City of Charlottesville, Treasurer's Office, Charlottesville, VA

- ▶ Managed and provided direction for funds management, banking, and audits of files and cash drawers to ensure accuracy and completeness.
- ▶ Managed bank reconciliations and cleared bank postings to general ledger; prepared bank deposits utilizing sound internal controls and ensuring compliance with auditor mandates.
- ▶ Successfully resolved any cash problems including overpayments, refunds, and receipts.
- ▶ Managed file updates, retrieval of information for the public or other agencies.

Customer Service Representative

July 2006-Oct 2006

City of Charlottesville, Treasurer's Office, Charlottesville, VA

- ▶ Client-focused customer service representative provided superior service in person, by email or phone with receipt of utility, real estate, and personal property tax payments; responded to inquiries related to taxes, utilities, parking tickets, and parking permits.
- ▶ Ensured compliance with all City, State, and Federal laws and other regulatory guidelines.
- ▶ Provided input to all office databases including Cencash, the centralized cashiering system, SAP (city's financial system), the enterprise resource planning system, integrity tax software, parking ticket system, zone parking permit system and collections database.

Office Manager

Aug 2003-Dec 2005

Backus Ford, East Syracuse, NY

- ▶ Managed daily office operations with oversight of payroll, accounts receivable, accounts payable, posting of sales, warranty paperwork and other administrative services and support.

Certified Master Governmental Deputy Treasurer

Nov 2009

University of Virginia, Weldon Cooper Center, Charlottesville, VA

Liberal Arts

May 1987

Onondaga Community College, Syracuse, NY

- ▶ University of Virginia, Weldon Cooper Continuing Adult Education Classes
- ▶ Skill Path Classes and Workshops
- ▶ City of Charlottesville Human Resources Classes and Workshops

Career Focus

Dynamic individual who utilizes his skills and knowledge to contribute towards the growth of non-profit organizations and youth education, thereby providing the benefits of job satisfaction and professional growth.

Education

Bachelor of Science | Physical Education | The College at Brockport, Brockport, NY

Associate of science | Physical Education and Exercise Science | Onondaga community College, Syracuse, NY

Work Experience

Youth Education Coordinator | Refugee and Immigrant Self-Empowerment (RISE) | 302 Burt St, Syracuse, NY, 13202 | January 2019 - Current

- Conduct and Coordinate after school programs that provide additional education for immigrant and refugee students of low socio-economic status.
- Create activities and projects that enhances writing, reading, math and health that allow students to display their content knowledge and understanding
- Develop and implement comprehensive lesson plans that accommodate specific skills students have while offering support to make sure students knew and understand the material.
- Provide a safe and fun environment for participants

Substitute Teacher | Syracuse City School District | Syracuse, NY | January 2019 - Current

- Managed a class of 20-30 students
- Followed and taught lesson plans assigned by permanent teacher for students' in grades K-12.
- Determined appropriate consequences for inappropriate students' behavior and write a report for teacher about the classes events
- Maintained effective classroom management strategies and behaviors in all subject areas

Teaching Related Experience

Secondary Student Teacher experience | Cicero North Syracuse High School | Cicero, NY | October 22nd, 2018 - December 12th, 2018

- Planned and developed lesson plans, unit plans and assessment for students in 10th-12th grade.

- Planned and implemented New York State Learning Standards, National standards and Common Core standards into lesson plans to enhance students learning.
- Taught students the fundamentals and strategies in various lifetime activities such as table tennis, aerobic fitness and basketball.

Elementary Student Teacher Experience | Roxboro Road Middle School | Syracuse, NY | September 4th, 2018 - October 17th, 2018

- Planned and developed unit and lesson plans based on student's appropriate development level.
- Evaluated and assessed students learning of content
- Ensured students safety by supervising and utilizing the gym space and equipment.

Coaching Experience

Volunteer Assistant Track and Field Coach | Cicero North Syracuse High School | Cicero, NY | November 13th, 2018 - January 4th, 2019

- Worked closely with head coach to support 60 student athletes during practice and track meets
- Prepared athletes by warming up for workouts and provided directions on drills
- Recorded time trials based on students' performance.
- Motivated and encouraged student athletes on performance and self-esteem.

Volunteer Assistant Soccer Coach | Roxboro Road Middle School | Syracuse, NY | September 4th, 2018 - October 22nd, 2018

- Coached modified girls' soccer grades 7th - 9th
- Taught athletes the fundamentals and strategies of soccer through various activities and drills.
- Developed practice plans and drills to improve individual and team performance.

Certification

- Stop the Bleeding (December, 2018)
- CPR and First Aid (May, 2018)

MATTHEW J. MARKO, P.E., BCEE, F.ASCE

Vice President, Principal Project Manager, Client Portfolio Manager

Education

B.S., Civil Engineering, State University of New York at Buffalo

University of North London, England (study abroad program)

Professional Registrations

Professional Engineer: New York (076324)

American Academy of Environmental Engineers Board Certified Environmental Engineer

Fellow, American Society of Civil Engineers

Biography

Matthew Marko is a New York State licensed Professional Engineer, an American Academy of Environmental Engineers Board Certified Environmental Engineer, and a Vice President with CH2M HILL's Water Business Group managing their Syracuse, NY office. In 2008 Mr. Marko was appointed by the New York State Governor to serve as Trustee for the SUNY College of Environmental Science and Forestry, now Vice-Chair, and where he also is a Visiting Instructor teaching Ecological Engineering. He's active with NY American Water Works Association, the NY Water Environment Association's Sustainability Committee as well as the Green Infrastructure Task Force, a Past-President of the Syracuse Section of the American Society of Civil Engineers and proud to be elevated to Fellow. He's a graduate of the University at Buffalo, and studied abroad at the University of North London. He is a Program Manager for Onondaga County's CSO Abatement Program, a national model for Green Infrastructure implementation. Matthew resides in the City of Syracuse with his incredibly patient and supportive wife Carrie, and two active young boys Jackson and Cooper.

Relevant Experience

Mr. Marko is a Principal Project Manager with the Water Business Group, located in the Syracuse, NY office and has over 20 years of experience in evaluating problems and providing solutions within the design, manufacturing, construction, and operations markets. He has managed over a dozen water filtration projects constructed in New York State bringing safe and reliable drinking water and environmental protection to small and large communities. He worked with the New York City Department of Environmental Protection (NYC DEP), helping them achieve time-sensitive requirements for their Filtration Avoidance program. He was Project Manager for the first Design-Build water treatment facility in New York State (Glens Falls, NY). He served as a Project Manager in Tampa, Florida as part of a Design-Build-Operate team constructing the largest Seawater Desalination Facility in the country. He currently serves as a Program Manager for the nation's first court mandated green infrastructure programs, to abate combined sewer overflows in Onondaga County (Syracuse, NY).

Mr. Marko has traveled extensively both domestically and internationally serving the water and wastewater needs of public and private clients, specializing in innovative project delivery systems to achieve client goals on schedule and budget. Matthew has seen nearly all of his design projects through construction and into operation, distinctively understanding the needs for integrating new and existing facilities. He manages the growing Syracuse, NY office of CH2M HILL and serves clients from the Catskills throughout all of Upstate New York.

Honors and Awards

In 2008 Mr. Marko was appointed by New York State Governor David Patterson to serve as Trustee for the State University of New York College of Environmental Science and Forestry (SUNY ESF). The members of the Board of Trustees serve as volunteers, providing community leadership, development, support, and oversight of the College. The 15-member Board consists of nine members appointed directly by the governor, one member elected from among the students of the College, and five *ex officio* members (the Lieutenant Governor, Commissioner of Education, Chancellor of the State University, the Commissioner of Environmental Conservation, and the Chancellor of Syracuse University). Mr. Marko has been elected by his peers to serve as Vice Chair of the Board.

The Onondaga County Green Infrastructure CSO Program, for which Matthew serves as a Program Manager for, earned the nationally esteemed 2013 Water Prize, presented by the U.S. Water Alliance for the best municipal water project. The program has earned multiple other national and local awards and recognitions.

The Westcott Reservoir Rehabilitation Project, a project Matthew served as Project Manager for, won the following American Council of Engineering Companies' Engineering Excellence Awards: 2011 New York State Diamond Award; 2011 National Recognition Award; this project also won the following American Public Works Association Awards: 2010 Central New York Chapter Environmental Project of the Year Award; 2010 New York State Environmental Project of the Year Award

2004 New York Section American Water Works Association Best Paper Award for Design-Build and New Technology in the City of Glens Falls. Mr. Marko served as Project Manager for the state-of-the-art Water Treatment Facility in the City of Glens Falls, NY, part of a team utilizing Design-Build as an innovative approach to municipal capital improvement and meet emergency needs to protect public health.

Professional Memberships

American Society of Civil Engineers (ASCE), Syracuse Section - President (2008-09)

American Water Works Association (AWWA), New York Section Program Committee

Water Environment Federation (WEF), New York Water Environment Association, Sustainability Committee, Green Infrastructure Task Force (led white paper "Developing Cost / Benefit Tools, Selection of Appropriate GI Techniques")

University at Buffalo Engineering Alumni Association

Representative Project Experience: Drinking Water Engineering

Principal-in-Charge, City of Syracuse UV Treatment Project, Syracuse, NY. This \$15+ million project will fulfill compliance with the LT2ESWTR regulation by providing redundant disinfection systems for the open Woodland Reservoir site, as well as the covered Westcott Reservoir site (required as part of the City's Filtration Avoidance Waiver). This project utilized a pre-purchase of the UV treatment system prior to advancing to final design. Construction for the project will begin in summer 2012 and extend into late 2013.

Project Manager, Westcott Reservoir Rehabilitation Project, City of Syracuse, NY. This \$40 million project replaces the open Westcott Reservoir with covered storage tanks and provides a long term solution for City water storage needs for the next century. Project met a major milestone for restoring water storage to the site in December 2009. The second tank was completed in 2010, and the final project includes solar panels on top of one tank and a hydro-turbine system in the water supply piping. These sister tanks are the 4th largest in the world at 375 feet inside diameter. Project awards include: National Recognition Award, ACEC; New York State Diamond Award, ACEC; New York Chapter Public Works Project of the Year (Environmental), APWA; Central New York Branch Structural Project of the Year, APWA.

Project Manager, 8-mgd Water Treatment Facility, City of Glens Falls, New York. Managed the design, construction, and start-up of the first design-build project in New York State for a new water infrastructure project. This facility consistently provides less than 0.1 NTU water, meeting Enhanced Surface Water Treatment Rule regulation.

Project Manager, Initial Distribution System Evaluation (IDSE), GIS Services, and Hydraulic Modeling, Mohawk Valley Water Authority, NY. Services include upgrade of MVWA GIS database and hydraulic model to comply with IDSE requirements utilizing a System Specific Study. GPS survey of nearly 8000 assets was completed prior to GIS development, as well as the integration of thousands of historical maps and record documents. CH2M HILL prepares all documentation necessary to respond to EPA IDSE requirements.

Project Manager, Water Quality Consultant, Reservoir Optimization Study, City of Rochester, NY. Three large, uncovered, finished water reservoirs will require covers, treatment, or removal from system as a result of new regulations. This study looked at the options available to the City and determined the water quality impacts that will result from the matrix of alternatives.

Principal-in-Charge, Hydraulic Modeling On-Call Contract, Mohawk Valley Water Authority, NY. As developer of the original MVWA hydraulic model, CH2M HILL continues to provide modeling expertise to the engineering department, including critical alternative assessment and evaluation for their support of development on the SUNY IT campus and advanced technology manufacturing facilities in Marcy, NY.

Project Engineer, Potable Water Vulnerability Assessment and Critical Response Planning, United States Air Force Institute for Operational Health, Brooks City-Base, Texas. CH2M HILL provided Water Vulnerability Assessment for 20 Air National Guard Bases as a part of this project, including site visits, vulnerability and risk assessments, critical response plans, and cost estimating. Mr. Marko is the water engineer for the following project locations:

Syracuse Air National Guard Base, New York
McGhee Tyson Air National Guard Base, Tennessee

Fort Wayne Air National Guard Base, Indiana
Peoria Air National Guard Base, Illinois
Bradley Air National Guard Base, Connecticut

Project Manager, General and Program Management Services, City of Syracuse, NY. Services provided include, assisting the Department of Water in developing a strategic plan for the drinking water system (prioritization and implementation of recommendations from the CH2M HILL report titled *Final Report of the Review of the Operations and Management of the City of Syracuse Department of Water*), identification of and application for low-interest funding sources, environmental quality compliance (state and federal), rate study and user fee impact analysis, providing general consulting and engineering expertise to support Department staff in various management, operations, and engineering functions as needed.

Project Engineer, Review and Assessment of Current Management Practices, Department of Water, City of Syracuse, NY. CH2M HILL examined the operations and management practices of the City of Syracuse's water utility to determine opportunities for improvement in efficiency and effectiveness in providing services to its customers. The project was comprehensive in that it addressed all aspects of the organization including the following work practice categories: strategic alignment, plant and field operations, maintenance activities, asset management, financial and capital planning, information systems, safety and security, customer service and billing, human resources including staffing levels, and communication throughout the Department and between the Department and other government agencies. Both metric and process benchmarking were employed to identify gaps between current practices and industry "best-in-class." A customer satisfaction survey was also conducted to determine public perception of utility services and drinking water quality. Recommendations were prioritized based upon the relative importance of the work practice category and criticality of the "gap." A road map for improvement that includes estimated costs of, as well as a timeline for, implementing recommending improvements.

Project Manager, Development of a Groundwater Supply System, Confidential Client, Upstate NY. Project is the result of successfully completed water supply study that identified groundwater as the most viable water supply solution to meet this private industry's needs. Project includes field investigations and testing, mapping, and preliminary design for the development of a groundwater supply solution. Water conservation solutions, including reclaimed water reuse, are also part of this scope of work. Project objectives include provision of water supply that meets immediate and long-term demands.

Project Manager, Development of a Groundwater Supply System, Lily Dale Assembly, NY. Project is the result of successfully completed water supply study that identified a viable groundwater supply solution to meet this private community's needs. Project includes field investigations and testing, mapping, test well program, and preliminary design for the development of a groundwater supply solution. Project is ongoing and has not moved to final design due to funding issues.

Engineering Manager, 1.0-mgd Water Filtration Facility, St. Regis Mohawk Tribe, Hogansburg, NY. This Native American community filters water directly from the St. Lawrence Seaway and is subject to high fluctuations in turbidity.

Engineering Manager, 1.0-mgd Water Filtration Facility, Keeseville, NY. This northern NY community filters water from a surface reservoir high in organic matter.

Engineering Manager, Water Filtration Facility, Port Henry, NY. This community filters up to 350,000 gpd of water from a river impoundment.

Engineering Manager, Water Filtration Facility, Wilmington, NY. This community, just northeast of Lake Placid, NY, filters 350,000 gpd of water from a river impoundment.

Engineering Consultant, Ogden Yorkshire Water Company, Fairfield, NJ. Technical consultant for bid proposal for the City of Rio De Janeiro, Brazil, including water system computer modeling and planning, wastewater treatment facility preliminary design, and review of sewage collection system and sea outfall.

Project Engineer, Water System Improvements, Fair Haven, NY. Responsibilities included computer modeling and planning, design of water system improvements, contract administration, and construction management.

Project Manager, Water System Improvements, Central Square, NY. Provided field survey, computer modeling and planning, design of water system improvements, contract administration, and construction management for multiple pipeline rehabilitation projects.

Project Engineer, Well House and Telemetry Improvements, Norwich, NY. Water system improvements project included computer modeling and planning, design and construction of new well house and pumping facility, as well as SCADA upgrade.

Representative Project Experience: Wastewater Engineering

Program Manager, Program Management for Revised Combined Sewer Overflow Long Term Control Strategy, Onondaga County Department of Water Environment Protection, NY. Onondaga County, New York, has long been implementing an amended consent judgment (ACJ) for control of combined sewer overflows (CSO) to Onondaga Lake. In September, 2009, Mr. Marko assisted Onondaga County with arguments in federal court that led to the Fourth Stipulation and Order amending the ACJ, to balance grey and green infrastructure (GI) implementation and achieve 95% CSO treatment/elimination by December 31, 2018. After a brief pilot period, the program initiated "Project 50" constructing of over 50 distinct GI projects in 2011 (we achieved 60). To date, the program team has completed over 150 projects through the end of 2013, mitigating over 100,000,000 gallons of stormwater runoff (annually). The total program budget is nearly \$80 million. CH2M HILL works closely with the County Department of Water Environment Protection to plan, design, procure for construction, operate and maintain this new approach to stormwater infrastructure, utilizing numerous community partnerships to achieve implementation goals. Technologies utilized include green roofs, porous pavements, bioretention systems, cistern and water reuse systems, a City-wide tree planting program, pavement removal projects, and an innovative wetland system to address flow from a CSO outfall. A robust Asset Management system is under development. Most recent advancements include development of the most advanced large system stormwater management model (SWMM) to include low impact development (LID) modules, enabling planning for future green infrastructure, system optimization, and regulatory compliance. www.savetherain.us

Project Officer, Asset Management Plan Development and Maximo System Upgrade, Onondaga County Department of Water Environment Protection (WEP), NY. WEP is a progressive wastewater utility recognizing opportunities exist to improve their effectiveness,

efficiency and service by implementing a comprehensive asset management program, including upgrades to its Computerized Maintenance Management System. Project approach focuses on assessing current practices and needs/opportunities as well as processes and tools, identify gaps, develop recommendations for improvements, lead workshops for business process analysis, develop strategic asset-centric plans, guide WEP through Maximo upgrades, and help with organizational changes necessary to achieve asset management best practices. This will ensure better long-term stewardship of County assets and better asset decisions through an integrated set of business processes and tools. Completion of the initial project phase is December 2013.

Project Manager, Multiple Hearth Furnace Equipment and Emission Control Upgrade Project, Buffalo Sewer Authority, Bird Island WWTP, NY. The BSA is upgrading one of three incinerators and final design is complete, equipment pre-purchase is underway, and construction bids forthcoming. Project scope includes engineering evaluation, basis of design report, NYSERDA application and funding assistance, regulatory assistance, design services, bidding assistance, construction administration and inspection services, SCADA and instrumentation upgrade (beyond incinerators) and CMMS population.

Project Manager, WWTP Aeration Upgrades, Anheuser-Busch, Inc., Baldwinsville Brewery. Anheuser-Busch (A-B) implemented a CH2M HILL recommendation to replace their jet-aeration system with a fine-bubble diffuser system in their one active aeration basin. Project reduces aeration power consumption by greater than 50%. Primary objectives of project included design of an optimized air delivery system (including air filtration assessment) and fine-bubble diffused aeration, calculation of projected energy savings, regulatory approval, provide for stable process control through instrumentation, and provide robust asset life. A technical package for A-B to competitively procure the fine-bubble system was prepared, as well as a technical General Construction package for ancillary mechanical and instrumentation installation - all without disruption of brewing operations. Project achieved planned return on investment (ROI) through operating cost savings.

Engineering Manager:

- 3.85-mgd Tertiary Treatment Upgrade, Walton, NY
- 1.85-mgd Tertiary Treatment Upgrade, Delhi, NY
- 1.85-mgd Tertiary Treatment Upgrade, Stamford, NY

These plants are permitted to discharge directly into the New York City reservoir system and are the three largest in the Catskill/Delaware Watershed. Treated effluent exceeds federal drinking water standard for turbidity and complies with the stringent NYC watershed regulations for nutrient (phosphorus) removal. These upgrades have resulted in NYC DEP removing the Cannonsville Reservoir from the list of phosphorus-restricted basins.

Project Manager, Wastewater Treatment Facility, Town of Indian Lake, NY. Managed design, construction, and start-up of this newly constructed plant, utilizing both contact stabilization and extended air treatment, integrated with existing facilities.

Project Manager, West Street Area Sewer Separation Project, Onondaga County Department of Drainage and Sanitation/Lake Improvement Project Office, NY. Provided field investigations, design, contract administration, and construction management for this first of

many sewer separation projects to be completed as part of the Onondaga Lake Improvement Project.

Resident Engineer, Wastewater Treatment Facility Upgrade, Minoa, NY. Provided field engineering and construction management services for the installation of a Sequencing Batch Reactor (SBR) facility operating in conjunction with a constructed wetlands treatment system.

Project Engineer, Wastewater Treatment Facility Upgrade, Central Square, NY. Provided design, construction management, and start up services for a new sequencing batch reactor and tertiary filtration facility integrating new and old infrastructure components.

Engineering Manager, Tertiary Treatment Upgrade, Watchtower Educational Facility, Patterson, NY. This 430 kgpd institutional wastewater facility is located in the NYC watershed and the first to be upgraded east of the Hudson River as part of the NYC DEP Upgrade Program.

Engineering Manager, Tertiary Treatment Upgrade, Hunter Highlands Ski Resort, Hunter, NY. Also in the NYC watershed, this 50KGPd facility handles large peaking factors during the ski season and very low flow during the summer months.

Project Manager, Sewage Collection and Conveyance, Hague, NY. Provided high pressure lift station and low pressure collection system design review and modifications.

Representative Project Experience: Desalination Engineering

Engineering Manager, 50-mgd Seawater Desalination Plant, Tampa, FL. The Apollo Beach facility is currently the largest desalination project in the U.S. Scope of work included design, construction and operation of the pre-filtration system installed prior to the reverse osmosis membranes.

Representative Project Experience: Water Reuse/Reclamation Engineering

Program Manager, Onondaga County War Memorial Rainwater Harvesting and Reuse System, Syracuse, NY. The War Memorial reuse system captures rainwater from the arena for treatment and reuse to become the first facility to ever use rainwater to produce ice for a professional hockey team.

Representative Project Experience: Civil Engineering

Project Manager, Connective Corridor Phase 2 Civic Strip Improvements Project, Syracuse University, Syracuse, NY. This project includes improvements to multiple City of Syracuse intersections, including ADA compliant crosswalks, pedestrian signage, as well as numerous improvements to civic entrances in the heart of downtown Syracuse, NY. The project is intended to improve the pedestrian experience, and engage the public to utilize the civic resources that exist within the Civic Strip and Connective Corridor. Project completion is expected in 2014.

Project Manager, Base Infrastructure Improvements, Seneca County Industrial Development Agency, NY. At the Seneca Army Depot, work included analysis of existing wastewater infrastructure for large-scale expansion.

Project Manager, Municipal Park Improvements Project, Fair Haven, NY. Responsibilities included planning, design, and construction inspection.

Project Engineer, Village Street Reconstruction Project, Hamilton, NY. Responsibilities included highway design, new water main, sanitary and storm sewers; water system computer modeling and planning.

Project Manager, Sidewalk Improvements Project, Fair Haven, NY. Responsibilities included planning, design, and construction inspection.

Project Engineer, Village Street Reconstruction Projects, Cazenovia, NY.

LEGISLATURE CHAMBERS

ONONDAGA COUNTY, N.Y.

Presented By: Chairman David H. Knapp

The above named member of the County Legislature of Onondaga County, New York, on the 6th day of August 2019, wishes to:

RECOGNIZE AND CONGRATULATE THE LAFAYETTE BOYS LACROSSE TEAM UPON WINNING THE STATE CHAMPIONSHIP

WHEREAS, the LaFayette Boys Lacrosse team entered the Class D Sectional playoffs with a record of 9-7; and

WHEREAS, the LaFayette Boys Lacrosse team defeated Tully and narrowly beat Skaneateles to advance to the Section III Championship, and

WHEREAS, the LaFayette Boys Lacrosse team coasted past Marcellus 16-1 to win their first Section III title since 2009; and

WHEREAS, the LaFayette Boys Lacrosse team beat Salmon River, Chenango Forks and Penn Yan to advance to the State finals; and

WHEREAS, the LaFayette Boys Lacrosse team, which includes LaFayette High School, Onondaga Nation, and Onondaga Central, won seven straight games to clinch the Class D State Championship; and

WHEREAS, to capture the Class D State Championship title, the LaFayette Boys Lacrosse team beat Briarcliff by a score of 9-8 with the final goal coming 37 seconds into overtime; and

WHEREAS, the LaFayette Boys Lacrosse team entered sectionals unranked and finished the season number one in the New York State Class D final rankings; now, therefore be it

RESOLVED, that Chairman Knapp, and all members of the Onondaga County Legislature, do hereby recognize and congratulate the LaFayette Boys Lacrosse team upon winning the Class D State Championship.

I hereby certify that the foregoing was duly noted by the County Legislature of Onondaga County, New York.
Witness my hand and seal of said Legislature.

Clerk, County Legislature

RESOLUTION NO. _____

IN MEMORIAM

WHEREAS, it has pleased Almighty God to remove from this Earth, the Honorable James C. Tormey III, Justice of the New York State Supreme Court; and

WHEREAS, the Honorable James C. Tormey III, a Syracuse native, served as the Administrative Judge for the Fifth Judicial District of the New York State Courts from 2000 through 2019, having been appointed to serve in that position by the Chief Administrative Judge; and

WHEREAS, the Honorable James C. Tormey III served as Justice of the New York State Supreme Court, first appointed in 1995 and shortly thereafter elected to serve a fourteen-year term; and

WHEREAS, the Honorable James C. Tormey III also served as Syracuse City Court Judge, elected to that position in 1987 and serving through 1995; and

WHEREAS, the Honorable James C. Tormey III first served as an Onondaga County Legislator in 1977, then was re-elected to serve a total of five terms through 1987, where his tenure included rising to serve as Chairman of the Legislature's Health Committee; and

WHEREAS, during the Honorable James C. Tormey III's tenure as Administrative Judge for the Fifth Judicial District, Judge Tormey oversaw 300 judges and 600 court employees for nearly two decades within Herkimer, Jefferson, Lewis, Oneida, Onondaga and Oswego Counties; and

WHEREAS, as Administrative Judge for the Fifth Judicial District, the Honorable James C. Tormey III was a dedicated administrator who successfully improved the operation of the courts, instituted centralized arraignments in Onondaga and Oneida Counties, organized peer review and mentoring programs for judges, and spearheaded access-to-justice initiatives; and

WHEREAS, the Honorable James C. Tormey III proudly coached local youth in the sports of lacrosse, little league, and hockey, founded the Valley Lacrosse League in 1992, and was instrumental in the planning of a new turf lacrosse and football field in the Valley area of the City of Syracuse; and

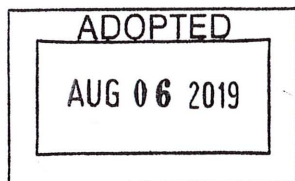

WHEREAS, the Honorable James C. Tormey III is remembered as a devoted family man, a loyal and honorable friend, and as a man who truly cared for those he oversaw, with a deep desire to help those around him; and

WHEREAS, the Honorable James C. Tormey III leaves behind his beloved wife Susan, beloved son Andrew, beloved daughter Colleen, and three cherished grandchildren, and it is the desire of this Legislature to express its sympathy to the grieving family of the Honorable James C. Tormey III on the sad occasion of his passing; now, therefore be it

RESOLVED, that the members of the Onondaga County Legislature do hereby express sincere and heartfelt sympathy to the family and friends of the Honorable James C. Tormey III; and, be it further

RESOLVED, that this resolution be spread among the minutes of this Onondaga County Legislature, and a copy be prepared and provided to the family of the Honorable James C. Tormey III.

RESOLUTION NO. _____

PROVIDING FOR VARIOUS PERSONNEL CHANGES

WHEREAS, it is necessary for the County to provide for various changes to personnel; now, therefore be it

RESOLVED, that the following changes are authorized, effective the first full pay period after July 2, 2019.

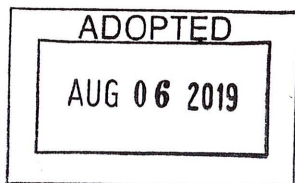

Health Department (Admin Unit 40-43-00)

Create L108042, Public Health Social Worker 1 (PHSW) at Grade 11, \$57,738 - \$63,902.

Such Public Health Social Worker 1 position created herein shall be automatically abolished without further action of this County Legislature in the event that the grant funding supporting the position terminates. If there is a desire by the Health Department to retain the position when the grant funds expire, the Health Department may report to Health Committee of this County Legislature with the request; and, be it further

RESOLVED, that the Commissioner of Personnel is authorized to make any administrative corrections as may be reasonably needed to effectuate the intent of this resolution.

Motion Made By Ms. Cody, Mr. Jordan

RESOLUTION NO. _____

APPROVING THE DESIGN (SCOPING I-VI) AND CONSTRUCTION PHASES OF THE
PEDESTRIAN CROSSING IMPROVEMENTS SAFETY PROJECT, PIN 30PS02, AGREEING TO
PARTICIPATE AND PAY UP TO 100 PERCENT OF THE NON-FEDERAL SHARE OF THE
PROJECT AND ACCEPTING THE PEDESTRIAN IMPROVEMENTS

WHEREAS, the Pedestrian Crossing Improvements Safety Project, PIN 30PS02, funded for in Title 23 US Code, as amended, calls for the apportionment of the costs for the Design (Scoping I-VI) and Construction phases to be allocated at the ratio of 100 percent federal funds (\$250,000) and 0% non-federal funds; and

WHEREAS, the State of New York will administer the Design (Scoping I-VI) and Construction phases on behalf of Onondaga County, and the State of New York will advance the federal share, subject to reimbursement; and

WHEREAS, the State of New York requires Onondaga County to contribute up to 100 percent of the non-federal share of the Design (Scoping I-VI) and Construction phases of this project, and to advance the total non-federal share of the cost; and

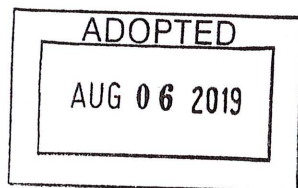

WHEREAS, the County of Onondaga desires to advance the project to implement certain pedestrian improvements resulting from the project; now, therefore be it

RESOLVED, that the County Legislature hereby approves the Design (Scoping I-VI) and Construction phases of the project, agrees to participate in the project, agrees to pay in the first instance the full non-federal share of the cost of the project, and agrees to accept ownership of the improvements resulting from the project; and, be it further

RESOLVED, that in the event the non-federal share of the costs of the project exceed the amount appropriated above (\$0), the County of Onondaga shall convene as soon as possible to appropriate said excess amount immediately upon the notification by the State of New York thereof; and, be it further

RESOLVED, that the County Executive is authorized to enter into agreements and execute such documents as may be reasonably necessary to implement the intent of this resolution.

RESOLUTION NO. _____

AUTHORIZING THE TRANSFER OF TAX DELINQUENT PROPERTIES TO THE VILLAGE OF
MARCELLUS FOR PARK PURPOSES

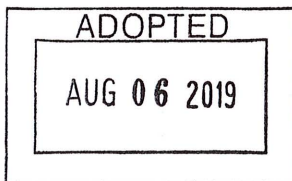

WHEREAS, Onondaga County is the owner and holder of the tax sale certificates on the tax delinquent parcel identified as tax parcel 001.-01-01.1, consisting of approximately 1.9 acres in the Village of Marcellus; and

WHEREAS, the Village of Marcellus seeks to acquire such property for the sum of thirty-five thousand dollars (\$35,000) to establish a Solar Park Green Gateway project at the former Lower Crown Mill site in the Village; now, therefore be it

RESOLVED, that for a consideration of thirty-five thousand dollars (\$35,000), the Onondaga County Executive and the Chief Fiscal Officer are authorized to execute deeds to acquire the above referenced parcels by tax deeds and to transfer such parcels to the Village of Marcellus for park purposes; and, be it further

RESOLVED, that any and all unpaid interest and penalties on such parcel shall be discharged.

RESOLUTION NO. _____

AMENDING THE 2019 COUNTY BUDGET TO MAKE FUNDING AVAILABLE TO SUPPORT A
PROGRAM OF AID FOR COMMUNITY AND ECONOMIC DEVELOPMENT PROJECTS WITHIN
ONONDAGA COUNTY

WHEREAS, surplus funds from prior years have been accumulated within the Water Fund by the County in connection with the operations of the Metropolitan Water Board, including funds attributable to payments made in lieu of taxes and payments of penalties and interest collected by the County's Department of Finance; and

WHEREAS, it is in the interest of the County and its residents to support projects and programs that contribute to community and economic development within this County, such as village main street programs; town planning grants; real property remediation and/or development; promotion of job growth; and business expansion within our community; and

WHEREAS, it is intended to amend the budget and make such surplus funds available for such use; now, therefore be it

RESOLVED, that \$1,000,000 will be managed and administered by the Office of Economic Development to support the County's economic growth and related initiatives; and, be it further

RESOLVED, that \$300,000 will be managed and administered by Syracuse-Onondaga County Planning Agency (SOCPA) for Town Planning Grants; and, be it further

RESOLVED, that \$1,500,000 will be managed and administered by the Office of Community Development for Village Main Street Projects; and, be it further

RESOLVED, that documentation shall be retained as may be needed showing that activities undertaken in connection with this resolution are in compliance with the State Environmental Quality Review Act (SEQRA); and, be it further

RESOLVED, that the 2019 County Budget is amended as follows:

Motion Made By Mr. Knapp

RESOLUTION NO. _____

AUTHORIZING THE TRANSFER OF TAX DELINQUENT PROPERTIES TO THE ONONDAGA
COUNTY ACCOUNTABILITY & REINVESTMENT CORPORATION

WHEREAS, Onondaga County is the owner and holder of the tax sale certificates on the tax delinquent parcel listed below, and the Onondaga County Accountability & Reinvestment Corporation has need for said property for economic development purposes, consistent with its purposes under state law; and

WHEREAS, the parcel is intended to be ultimately sold to a subsequent buyer, and the interests of the County and of the wider public are served by this transfer, supported by consideration comprised of the Onondaga County Accountability & Reinvestment Corporation's effort and cost related to holding, marketing, and selling this parcel, with the goal of redevelopment and generation of greater revenues through real property taxes and sales taxes from such transfer; and

WHEREAS, the following tax delinquent parcel is to be transferred to the Onondaga County Accountability & Reinvestment Corporation:

028.-01-10.5 56 Industrial Drive (Town of Geddes)

now, therefore be it

RESOLVED, that the proposed action is an Unlisted action and this Legislature shall act as the Lead Agency for the purposes of the New York State Environmental Quality Review Act (SEQRA); and, be it further

RESOLVED, that the Short Environmental Assessment Form (SEAF) for this project has been completed and reviewed and is on file with the Clerk of the Legislature; and, be it further

RESOLVED, that this Legislature has considered the proposed action, thoroughly analyzed the identified relevant areas of environmental concern, if any, and hereby finds and declares a negative declaration under SEQRA because the transfer of the property to the Onondaga County Accountability & Reinvestment Corporation will not result in any significant adverse environmental impacts; and, be it further

RESOLVED, that, contingent upon both parties having reached mutually agreeable terms and conditions for such transfer, for a consideration of \$1, waived, the County Executive and the Onondaga County Chief Fiscal Officer are authorized to execute deeds to acquire the above mentioned property by tax deed, to transfer said property to the Onondaga County Accountability & Reinvestment Corporation, and to discharge any and all unpaid interest and penalties thereon, excepting the year on which the tax deed is based, and it is further resolved that the County Executive is further authorized to execute agreements to further the intent of this Resolution.

I HEREBY CERTIFY THAT THE FOREGOING IS A TRUE AND
EXACT COPY OF LEGISLATION DULY ADOPTED BY THE
COUNTY LEGISLATURE OF ONONDAGA COUNTY ON THE

6th DAY OF August, 2019.

Short Environmental Assessment Form

Part 1 - Project Information

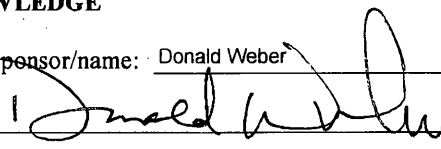

Instructions for Completing

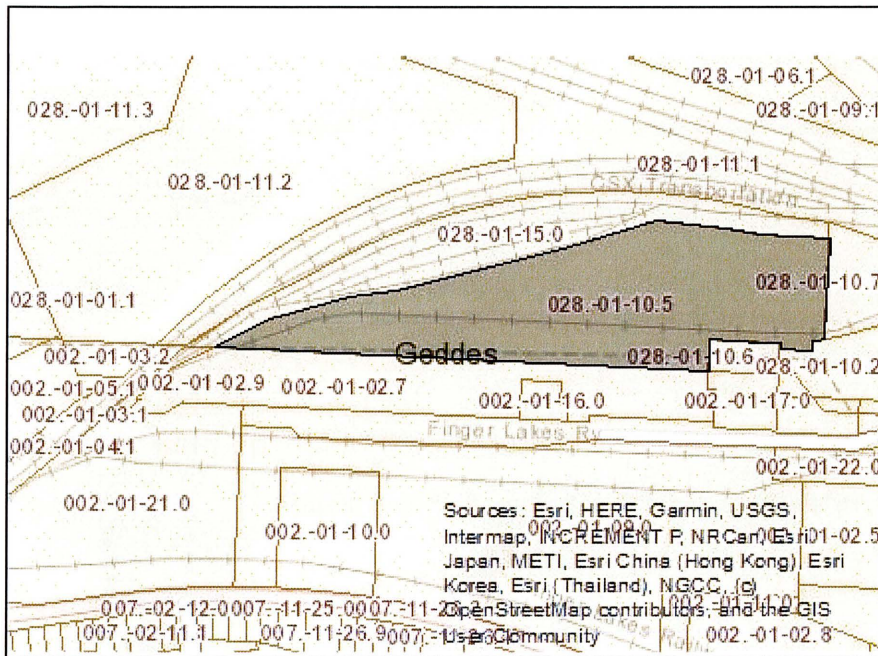

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

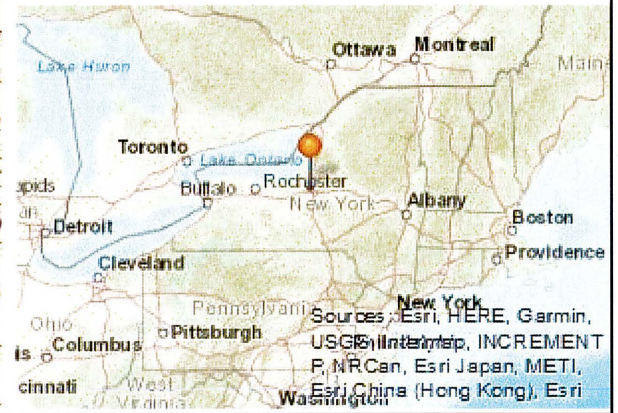

Part 1 – Project and Sponsor Information			
Onondaga County (Office of Real Property Tax Services)			
Name of Action or Project: Tax Foreclosure and Sale			
Project Location (describe, and attach a location map): 56 Industrial Drive, Town of Geddes Onondaga County			
Brief Description of Proposed Action: County foreclosure on a tax delinquent parcel and subsequent sale to Onondaga County Accountability and Reinvestment Corporation.			
Name of Applicant or Sponsor: Donald Weber - Director - Real Property Tax Services		Telephone: 315-435-2426	
		E-Mail: donaldweber@ongov.net	
Address: 421 Montgomery Street			
City/PO: Syracuse	State: NY	Zip Code: 13202	
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.		NO <input checked="" type="checkbox"/>	YES <input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:		NO <input checked="" type="checkbox"/>	YES <input type="checkbox"/>
3. a. Total acreage of the site of the proposed action?		11 acres	
b. Total acreage to be physically disturbed?		0 acres	
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		11 acres	
4. Check all land uses that occur on, are adjoining or near the proposed action:			
5. <input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input checked="" type="checkbox"/> Industrial <input checked="" type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban)			
<input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other(Specify):			
<input type="checkbox"/> Parkland			

5. Is the proposed action,	NO	YES	N/A
a. A permitted use under the zoning regulations?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?	NO	YES	
If Yes, identify: _____	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Are public transportation services available at or near the site of the proposed action?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?	NO	YES	
If the proposed action will exceed requirements, describe design features and technologies: _____ _____	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply?	NO	YES	
If No, describe method for providing potable water: _____ _____	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities?	NO	YES	
If No, describe method for providing wastewater treatment: _____ _____	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____ Geddes Brook _____ _____			

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply: <input type="checkbox"/> Shoreline <input type="checkbox"/> Forest <input type="checkbox"/> Agricultural/grasslands <input type="checkbox"/> Early mid-successional <input type="checkbox"/> Wetland <input checked="" type="checkbox"/> Urban <input checked="" type="checkbox"/> Suburban		
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered? Indiana Bat, Lake Sturgeon	NO	YES
	<input type="checkbox"/>	<input checked="" type="checkbox"/>
16. Is the project site located in the 100-year flood plan?	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes,	NO	YES
a. Will storm water discharges flow to adjacent properties?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe:	<input type="checkbox"/>	<input type="checkbox"/>
18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)? If Yes, explain the purpose and size of the impoundment:	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe:	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe:	NO	YES
NYSDEC Remediation Site's 734008, 734049, 734126, 734066, 734072, C734119, 734026, 734008, 734030	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Disclaimer: The EAF Mapper is a screening tool intended to assist project sponsors and reviewing agencies in preparing an environmental assessment form (EAF). Not all questions asked in the EAF are answered by the EAF Mapper. Additional information on any EAF question can be obtained by consulting the EAF Workbooks. Although the EAF Mapper provides the most up-to-date digital data available to DEC, you may also need to contact local or other data sources in order to obtain data not provided by the Mapper. Digital data is not a substitute for agency determinations.

Part 1 / Question 7 [Critical Environmental Area]	No
Part 1 / Question 12a [National or State Register of Historic Places or State Eligible Sites]	No
Part 1 / Question 12b [Archeological Sites]	No
Part 1 / Question 13a [Wetlands or Other Regulated Waterbodies]	Yes - Digital mapping information on local and federal wetlands and waterbodies is known to be incomplete. Refer to EAF Workbook.
Part 1 / Question 15 [Threatened or Endangered Animal]	Yes
Part 1 / Question 15 [Threatened or Endangered Animal - Name]	Indiana Bat, Lake Sturgeon
Part 1 / Question 16 [100 Year Flood Plain]	No
Part 1 / Question 20 [Remediation Site]	Yes

Project:

Date:

Short Environmental Assessment Form
Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Project: Date:

Short Environmental Assessment Form

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The County is considering foreclosing on long tax delinquent property owned by DMI Acquisitions Syracuse LLC and then selling the property to Onondaga County Accountability and Reinvestment Corporation. The proposed action under consideration is merely the sale of property for back taxes. The County will not take possession of the property; rather it will foreclose and then immediately sell the property and transfer title to the buyer. Onondaga County Accountability and Reinvestment Corporation's purchase of the property will allow it to secure the site for remedial efforts by a responsible party and ensure the property is brought back to productive use. This action is Unlisted as it involves the sale of property comprised of less than 100 acres. Considering the aforementioned, Onondaga County issues this negative declaration for purposes of Article 8 of the Environmental Conservation Law because the proposed foreclosure and sale will not result in any significant adverse environmental impacts.

- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- ☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Motion Made By Mr. Jordan

RESOLUTION NO. _____

AUTHORIZING THE EXECUTION OF AN ORDER ON CONSENT RELATIVE TO THE
SETTLEMENT OF AN ENFORCEMENT ACTION BROUGHT BY THE NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION

WHEREAS, by Notice of Violation dated December 21, 2017, the New York State Department of Environmental Conservation (DEC) informed Onondaga County that the DEC would be initiating an enforcement action against the County for violating its State Pollution Discharge Elimination System (SPDES) permit in connection with the unpermitted discharge of raw sewage to Onondaga Creek and Onondaga Lake resulting from ruptures of the Ley Creek Force Main; and

WHEREAS, the County and DEC seek to enter into an Order on Consent (Case No.: R7-20180522-22) to settle this matter, a copy of which Order on Consent is on file with the Clerk of this Legislature; and

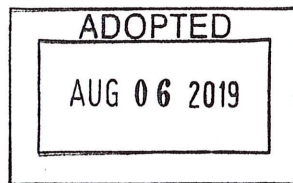

WHEREAS, the Order on Consent provides for the County to pay the DEC the sum of \$5,300 as a payable penalty, with a \$100,000 penalty suspended pending timely and successful completion of certain compliance items set forth in the compliance schedule attached to said Order, and the Central New York Regional Planning and Development Board (CNYRPDB) \$30,000 to help fund an Environmental Benefit Project (EBP) consisting of Onondaga Watershed Investigation and Remediation Projects (e.g., Tully Valley Mud Boil Remediation, Microbial Trackdown and fish consumption advisory education and outreach); and

WHEREAS, it is in the best interests of the County to enter into said proposed Order on Consent; now, therefore be it

RESOLVED, that the County Attorney is authorized to settle said action for the sum of \$135,300, of which \$100,000 is suspended, and that the Comptroller be and hereby is authorized to draw his warrant, charging it against the proper funds; and, be it further

RESOLVED, that the Onondaga County Executive is authorized to execute said Order on Consent, and to execute such further documents as may be reasonably necessary to implement the terms of the Order on Consent and to carry out the intent of this resolution.

LEGISLATURE

STATE OF NEW YORK
DEPARTMENT OF ENVIRONMENTAL CONSERVATION

-----X
In the Matter of Violations of Article 17 of the New York State
Environmental Conservation Law and of Title 6 of the Official
Compilation of Codes, Rules, and Regulations of the State of New
York, Part 750, by

CONSENT
ORDER

Onondaga County, New York,

Respondents

CASE NO.
R7-20180522-22

-----X

1. The New York State Department of Environmental Conservation (the Department or DEC) is responsible for the administration and enforcement of Article 17 of the New York State Environmental Conservation Law (ECL) and of Title 6 of the Official Compilation of Codes, Rules, and Regulations of the State of New York (6 NYCRR) Part 750, promulgated pursuant thereto.

2. The County of Onondaga (Respondent or Onondaga) is a municipal corporation organized and existing under the laws of the State of New York with municipal offices located in the City of Syracuse, Onondaga County, New York.

3. ECL 17-0511 provides that the use of existing or new outlets which discharge sewage is prohibited unless done in compliance with all standards, criteria, limitations, rules and regulations promulgated or applied by the Department.

4. ECL 17-0501 makes it unlawful, directly or indirectly, to throw, drain, run, or otherwise discharge into the waters of the State organic or inorganic matter that shall cause or contribute to a condition in contravention of the standards adopted by the Department pursuant to ECL 17-0301.

19 JUN 21 AM 10:42

RECEIVED
ONONDAGA COUNTY
LEGISLATURE

5. ECL 17-0803 makes it unlawful to discharge pollutants or other wastes from a point source to waters of the State without a State Pollutant Discharge Elimination System (“SPDES”) permit or to discharge in a manner other than as prescribed by such permit.

6. Title 6 NYCRR Subpart 750-2 sets forth regulations for operating a facility with a SPDES Permit.

7. Onondaga owns the Metropolitan Syracuse Wastewater Treatment Plant (Facility) located at 650 Hiawatha Boulevard West, Syracuse, Onondaga County, New York.

8. Onondaga applied for a SPDES Discharge permit for the Facility. The Department issued the current SPDES Discharge Permit NY-0027081, effective date July 1, 2017, expiration date June 30, 2022 (Permit). The Permit, and its predecessors, allows discharges into waters known as Onondaga Creek and Onondaga Lake, a class C water.

9. One of the force mains that transports raw sewage from the Facility collection system to the Facility for treatment is known as the Ley Creek Force Main, a 42 inch pipe located for part of its length adjacent to train tracks. Historically that force main has conveyed sewage under pressure, transported corrosive chemicals and been subjected to hydrogen sulfide pressures. These factors coupled with the age and location of the force main have predictably caused the force main to rupture on several occasions.

10. The Ley Creek Force Main ruptured on July 25, 2013, October 21, 2016 and on October 30, 2017.

11. Each time the force mail ruptured, raw sewage did not reach the Facility for proper treatment as required by law and the Permit. Instead raw sewage discharged straight into receiving waters as follows:

- a. July 25, 2013: Raw sewage discharged into Onondaga Lake over a period of three days. During the repair at a later date, the estimated volume for additional discharge into the Lake was 6,900,000 gallons.
- b. October 21, 2016. Raw sewage discharged into Onondaga Lake immediately after the rupture and during the repair. The estimated volume discharge was 13,000,000 gallons.
- c. October 30, 2017. Raw sewage discharged into Onondaga Lake immediately after the rupture and during the repair. The estimated volume discharge was 70,000,000 gallons.

12. The unpermitted discharges described in paragraphs 10 and 11 of this Order violate ECL sections 17-0501, 17-0511 and 17-0803. .

13. ECL 71-1929.1 provides for a civil penalty of up to \$37,500 per day for each violation of titles 1 through 11 and 19 of ECL Article 17 or the rules, regulations, orders, or determinations of the Commissioner promulgated thereto or the terms of any permit issued thereunder.

14. As settlement of the violations set forth in this Order, Respondent affirmatively waives the right to a hearing on this matter as provided by law, consents to the issuing and entering of this Order without further notice, and agrees to be bound by the provisions, terms, and conditions contained herein.

NOW, having considered this matter and being duly advised, **IT IS ORDERED THAT:**

I. Compliance. Respondents shall comply with the provisions, terms, and conditions set forth in this Order. Respondent's failure to comply with any provision of this Order shall constitute a default and a violation of this Order and, upon such default and violation, the Department's right to pursue all claims and remedies administratively, at law, or in equity shall not be affected by anything contained in this Order.

II. Schedule for Compliance. Respondents shall fully comply with the Schedule for Compliance set forth as Schedule A to this Order. Respondent shall properly execute this Consent Order and return it to the “New York State Department of Environmental Conservation” mail to: The New York State Department of Environmental Conservation, Region 7, Office of General Counsel, 615 Erie Boulevard West, Syracuse, New York 13204-2400, to the attention of Joseph Sluzar, Regional Attorney.

III. Environmental Benefit Project. Respondent shall participate in an Environmental Benefit Project (EBP) that complies with the Department’s environmental benefit projects policy (CP – 37), and shall spend Thirty Thousand and no/100 (\$30,000.00) on the EBP.

Onondaga Lake is a Class C water body of the State of New York. This proceeding was commenced following several unauthorized discharges into Onondaga Lake. In this EBP, Onondaga County will take steps to help restore Onondaga Lake and its watershed for the benefit of the public. These steps shall include the following:

a) The Department and Central New York Regional Planning and Development Board (CNTRPB) have entered into a “Cooperative Agreement” to fund Onondaga Watershed Investigation and Remediation Projects, including Tully Valley Mud Boil Remediation, Microbial Trackdown and fish consumption advisory education and outreach (Cooperative Agreement).

b) Respondent agrees to pay Thirty Thousand and no/100 (\$30,000.00) to CNYRPB to fund Onondaga Watershed Investigation and Remediation Projects pursuant to the described Cooperative Agreement.

c) Within 30 days after payment of the \$30,000.00 to CNYRPB, Respondent shall submit a receipt or other proof of payment to the Department and an affidavit of completion based upon the format set forth in Commissioners Policy – 37.

d) The Department shall be the sole judge of whether Respondent has complied with the terms of this Order as it relates to satisfactory implementation of the EBP.

e) Any statements, whether written or oral, that Respondent (or third-party at the request of the Respondent) makes with respect to the EBP shall include language stating that the project was undertaken as part of the resolution of an enforcement matter brought by the department for applicable violations.

IV. Civil Penalties. For the violations set forth herein, Respondent is hereby assessed a Payable Civil Penalty of five thousand three hundred dollars (\$5,300.00). a) The civil penalty of \$5,300.00 shall be paid, by electronic payment at <http://www.dec.ny.gov/about/61016.html> on-Line or by check made payable to the order of the “New York State Department of Environmental Conservation,” with the enclosed invoice and the Case Number of this Order on Consent written in the memo section of the check, which shall be sent to the Department of Environmental Conservation, Division of Management and Budget Services, 625 Broadway, 10th Floor, Albany, NY 12233-4900. (See Consent Order Payment Insert for additional instructions). b) Respondent is further assessed a Suspended Civil Penalty of one hundred thousand dollars (\$100,000.00), payment of which is suspended as a penalty to guaranty compliance and which shall become payable in the event that Respondent fails to comply with the provisions, terms, and conditions of this Order. The penalty to guaranty compliance under this paragraph shall become due and payable within fifteen calendar days after

Respondents receive written notice from the Department that Respondents are or were in violation of this Order. c) Failure to pay any penalty in accordance with this Article IV shall constitute a violation of this Order and may result in the assessment of additional penalties.

V. Default of Payment: The penalties assessed in this Order constitute a debt owed to the State of New York. Failure to pay the assessed penalty, or any part thereof, in accordance with the schedule contained in this Order may result in referral to the New York State Attorney General for collection of the entire amount owed (including the assessment of interest and a charge to cover the cost of collecting the debt) or referral to the New York State Department of Taxation and Finance, which may offset by the unpaid penalty amount any monies that may be owed to Respondents by the State of New York.

VI. Inspections. Respondents shall at all times allow any duly designated employee, consultant, contractor, or agent of the Department or of any other State agency to immediately enter the Facility or areas in the vicinity of the Facility which may be under the control of Respondents for purposes of inspecting and to ensure Respondents' compliance with this Order, with any permit, registration, license, or certificate heretofore or hereafter issued for the Facility, and with applicable laws and regulations.

VII. Indemnification. Respondents shall indemnify and hold the Department, the State of New York, and their representatives and employees harmless from all claims resulting from the acts or omissions of Respondents or their agents in compliance or attempted compliance with the provisions of this Order.

VIII. Reservation of Rights. The Department hereby reserves all its legal, administrative, and equitable rights arising at common law or as granted to it pursuant to statute or regulation, including, but not limited to, any summary abatement powers the Commissioner may have pursuant to ECL §71-0301.

IX. Modifications. No change in this Order shall be made or become effective except as specifically set forth by a further written order of the Department, being made either upon written application to the Department by Respondents setting forth the grounds for the relief sought; upon the Department's own findings after an opportunity for Respondents to be heard; or pursuant to the summary abatement powers of the Department.

X. Regulatory Fees. Nothing contained in this Order shall be construed as preventing the Department from collecting regulatory fees, where applicable.

XI. Binding Effect. The provisions, terms, and conditions of this Order shall bind Respondents, Respondents' agents, servants, employees, successors, and assigns, and all persons, firms, and corporations acting under or for Respondents.

XII. Force Majeure. Respondents shall not be in default of compliance with this Order if they cannot comply with the terms of this Order because of an act of God or other such condition, as to which, conduct on the part of Respondents or their consultants, contractors, or other agents was not a cause; provided, however, that Respondents immediately notify the Department in writing when they obtain knowledge of any such condition and request and receive an appropriate extension or modification of the provisions hereof.

XIII. Approval of Plans. "Approvable" within the context of this order shall mean capable of being approved by the Department with only minimal revision. Minimal revision

shall mean revised and resubmitted to the Department within fifteen days after notification by the Department of revisions that are necessary.

XIV. Entire Order. The provisions hereof shall constitute the complete and entire Order by the Department concerning Respondents and these violations. No terms, conditions, understandings, or agreements purporting to modify or vary the terms of this Order shall be binding unless approved in writing by the Commissioner or the Department's Region 7 Regional Director. Nothing contained in this Order shall affect Respondents' responsibilities under any other Order with the Department.

XV. Affected Resources. The Department reserves the right to bring any future action, administratively, at law, or in equity, against Respondents or Respondents' directors, officers, employees, servants, agents, successors, or assigns, regarding areas or resources which have been or may be adversely affected as a result of Respondents' violations described in this Order.

XVI. Effective Date. The effective date of this Order shall be the date it is signed by the Commissioner or the Commissioner's designee.

Schedule A
Schedule for Compliance

- 1) Within 90 calendar days of the execution of this Order, Respondent shall provide a written plan detailing their methods for detecting and determining flow rates to the environment in the event of a break or rupture of any large capacity force main or sewer including the Ley Creek force main, Liverpool force main, Main Interceptor Sewer (MIS), and the Harbor Brook Interceptor Sewer (HBIS). The plan must include the County's existing capabilities for determining individual flow measurements, and fluctuations in flows, from each large capacity force main and sewer. The plan shall also include an evaluation of the feasibility of implementing additional measures needed (i.e. flow meters, SCADA improvements, wet weather inspections, etc.) to improve the County's ability to detect, locate, timely respond, and measure future force main and sewer failures with discharges to the environment.
- 2) Respondent shall conduct a detailed engineering evaluation of the existing Ley Creek and Liverpool force mains and make recommendations for rehabilitation and/or replacement corrective measures to eliminate and prevent recurrence the force mains failures. The Department acknowledges the Respondent's proactive efforts to implement the force main engineering evaluation as outlined in the Respondent's attached "Request for Proposal – Ley Creek and Liverpool Force Mains Rehabilitation/Replacement Project" document. The Department further acknowledges the Respondent's overall goals to increase the useful life of the Ley Creek and Liverpool conveyance systems by 60 years, maintain (or increase) conveyance capacity, and construct a creek crossing independent of the CSX bridge. Consistent with the Respondent's evaluation efforts, the following compliance items will become incorporated into and made an enforceable part of this Schedule for Compliance and Order:

a. Alternatives Analysis Technical Memorandum: By no later than June 1, 2020, Respondent shall prepare and submit to Department, for review and approval, a technical memorandum describing all corrective measures and alternatives evaluated, including associated costs, logistics of implementation, advantages and disadvantages, specific recommendations, and other considerations and factors applicable. The evaluation shall consist of an assessment of existing conveyance systems conditions, field inspections of all manholes and air valves associated with the force mains, a detailed hydraulic analysis of existing force mains and interconnections, a preliminary hydraulic analysis of proposed force mains and interconnections, and an evaluation of at least three (3) alternative rehabilitation and/or replacement methods along with justification for the preferred corrective measure alternative(s).

b. Preferred Alternative Basis of Design Report and 25% Design: By no later than December 31, 2020, Respondent shall prepare and submit to Department, for review and approval, a Basis of Design Report along with 25% Design documents for the preferred corrective measure alternative. The submission shall include detailed hydraulic analysis of the proposed force mains along with conveyance capacities and efficiencies, and preliminary details of the preferred alternative, not limited to, the review of existing information, site inspections, acquisition of topographic surveys, soil and subsurface investigations, outline of design specifications, layouts of existing and new force main alignments, identification of any needed property easements or permits including SEQR process, a general bypass pumping plan, and a preliminary cost estimate. The submission shall include a summary of all work activities completed and a conceptual schedule of future activities.
