

Closed-Circuit Television Operator

The Department of Water Environment Protection (WEP) provides critical wastewater services to Onondaga County's Consolidated Sewer District. We are successful in our mission to protect local waterways and public health because of our hard-working employees. WEP is looking for a dynamic individual to join our team as a Closed-Circuit Television Operator.

WHY YOU?

WEP is continuously looking for motivated and dedicated employees to be a part of our cohesive and diverse team! If you have experience with closed-circuit television equipment and the maintenance of equipment utilized in sewer inspection and meet the minimum qualifications noted below, we value your skills and knowledge!

WHAT EXACTLY DOES A CLOSED-CIRCUIT TELEVISION OPERATOR DO?

The work involves responsibility for full performance of duties in the operation of all television equipment utilized in the inspection of sewer lines and is responsible for the maintenance of all equipment utilized in sewer inspection, such as, generators, cameras, monitors and motorized winches. An employee is expected to ensure that the television equipment is operated properly and is in proper working order as well as to correctly interpret monitor images on the television screen. Employee is expected to submit oral and written reports of sewer inspections including footage readings and monitor images; to maintain written and taped logs of same; to troubleshoot and repair basic electrical and mechanical malfunctions of closed-circuit televisions; to make recommendations for changes in closed circuit television equipment; and to work with engineering firms on research projects necessitating sewer line inspections. Work is assigned by a Sewer Maintenance Supervisor or Superintendent of Sewers and Streams depending upon location of assignment and is reviewed through informal consultation and written reports for same. Direct supervision is exercised over a small number of workers engaged in equipment operation or sewer inspection and maintenance. Does related work as required.

- Installs, operates, and maintains sewer line inspection equipment, such as, generators, cameras, monitor and motorized winches.
- Identifies structural damage and cracking of sewer pipes, which appear on the television screen.
- Makes recommendations for changes in equipment used in sewer line inspections.
- Accurately determines and records footage readings throughout the course of inspections.
- Prepares on site video and audiotapes of all sewer inspections by verbally recording results of inspections and videotaping televised sewer lines.
